

Clean Air Plant (CAP™)

The Clean Air Plant (CAP™) is a 100% biological air cleaning system. The patented system works by neutralizing small charged particles, drawing them into the machine where specially formulated microbes consume and destroy them. No filters needed. The system captures and destroys Diesel fumes, Carbon Monoxide, Hair Salons Fumes, Mold, any type of air pollution.

CAP-85™

*Cleans Air in spaces up to
2000 sf.*

Application: Office, garage
shop, salon, schoolroom

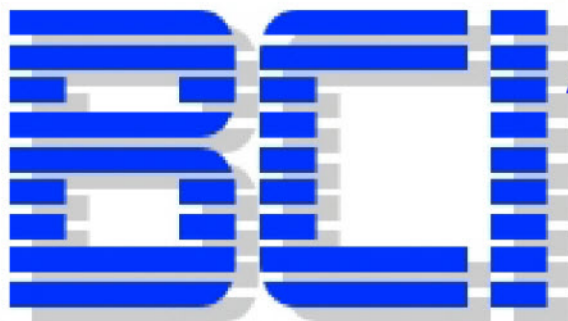

Electrical usage: 30W

Unit size:

13" Diameter x 22" H
25 lbs

**Destroys 10 lbs of
pollution per day.**
